MOD-L 20 Modeling Amplifier Owner's Manual

Congratulations on the purchase of your KUSTOM MOD-L 20 Modeling Amplifier. Your MOD-L 20 draws on decades of electronic design and manufacturing experience at KUSTOM. This model was built from the ground up to offer useful features and reliable performance. Inside this manual, you'll find valuable information about your product's controls and specifications. Being familiar with its features will help you effectively use your MOD-L 20. We wish you many years of enjoyment.

CONTROLS AND FEATURES OVERVIEW

1. **INPUT:** This is where you plug in your electric guitar.
2. **DISPLAY:** This area shows the amplifier model being played.
3. **HEADPHONES:** You can plug in any headphones or ear buds using 3.5 mm stereo plug for private listening. Note, when headphones are plugged into this jack, the internal speaker is defeated.
4. **VOLUME:** Use this control to set the volume of the amplifier.
5. **AMP SELECT:** Use this control to select from 24 different amplifier models.

OPERATION BASICS

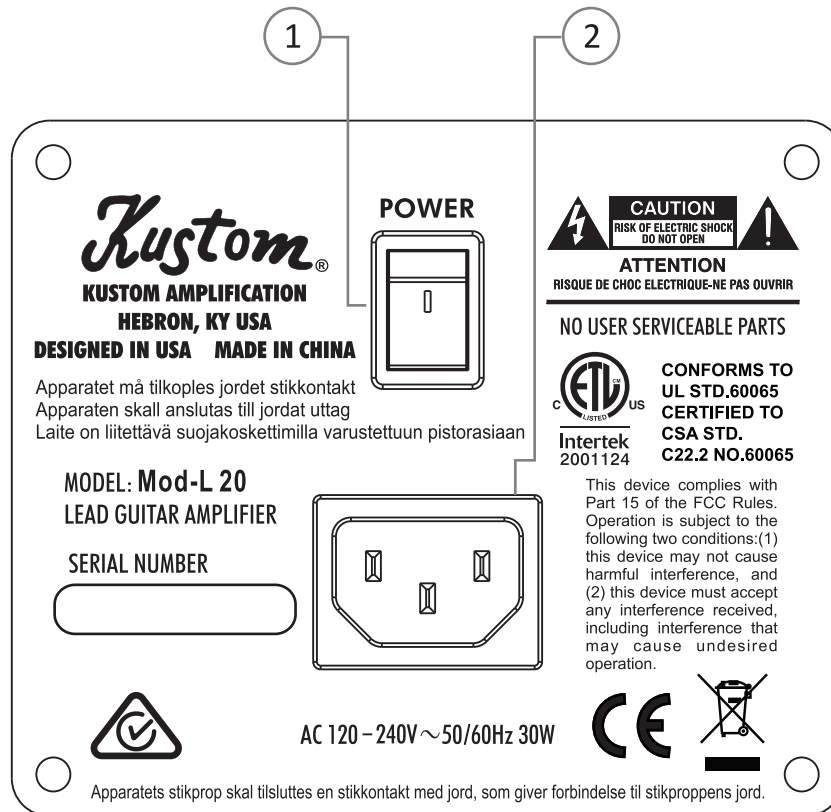

The Kustom MOD-L 20 takes the setup time and efforts out of modeling amplification. Simply choose the amp model you want and adjust the volume. It's that easy.

The Kustom MOD-L 20 features 24-amp models numbered 01-24. Choose the amp model by turning the AMP SELECT knob (5) to the desired setting.
